

# *Annual Companies that Care Award Nominations Needed*

This award was established to honor companies that have distinguished themselves not only by success in their industry but also by the commitment they have made to improving the quality of life in Chester County for residents and other businesses. As we begin preparations for this year's event, we are seeking nominations for the awards. We will once again honor a large company with more than 100 employees, a small company with less than 100 employees and a non-profit organization. If you know of a company that deserves this honor or would like to nominate yourself, please read below for instructions.

Last year the Chester County Chamber Foundation honored ***DNB First, Blue Moon Florist, and Handi-Crafters, Inc.*** for their outstanding contribution to our community with our Companies that Care Award. Let's continue the tradition!

## **Companies That Care NOMINATION CRITERIA**

### **All Nominees must:**
